

SIMPLE, SMART, EFFECTIVE

Simple is NOT a trending concept in education. But there is a place for simplicity. We don't trivialize school improvement by suggesting it's easy. But when we embrace the values of simplicity and efficacy, teams of teachers and leaders can promote change, keep colleagues on course, and provide value to each other, day by day. At Advanced Collaborative Solutions, we don't do philosophies, big-picture thinking or strategic planning. We provide tools and strategies schools can use to create effective teacher and leadership profiles.

ACHIEVEMENT TEAMS CERTIFICATION: BUILD INTERNAL CAPACITY

Achievement Teams™ is an experiential and effective four-step protocol centered around Collective Teacher Efficacy - a shared belief that educators can have a greater impact on student achievement when they work together. Achievement Teams ensure continuous improvement and better student outcomes by providing a structure for teachers to collaboratively reflect, identify areas of need, and select optimal instructional approaches to respond to those needs.
