What are Achievement Teams?

Achievement Teams is an experiential, collaborative four-step protocol that focuses on collective teacher efficacy. All of the components of an Achievement Team are intentionally aligned to those teacher and leadership profiles that have the greatest impact on student achievement.

The process provides a structure for teachers to specifically identify areas of student need and collaboratively decide on the best instructional approach in response to those needs. When schools and school systems break down the silos of individual practice, we can create truly professional teams of educators who continuously reflect on and improve their practice.

Achievement Teams Certification:

Build Internal Capacity and Collective Efficacy

This powerful three-day certification will transform the way teaching and leadership teams function and communicate. By training your own cadre of facilitators through the Achievement Team Certification process, your organization will immediately be able to build internal capacity while doubling your ability to raise student achievement.

Led by nationally recognized professional development consultant Steve Ventura (Author/ Consultant-Corwin Professional Learning, founder of Advanced Collaborative Solutions), attendees will be engaged in authentic, performance based tasks designed to deepen their ability to learn content and sharpen facilitation skills. As each step of the training unfolds, participants receive immediate feedback on content delivery, coaching, adult learning modalities, and a multitude of implementation strategies.

Stephen Ventura is a Distinguished Professional Development Consultant at Advanced Collaborative Solutions and an Author/ Consultant for Corwin Professional Learning. He is a highly motivational and knowledgeable speaker who approaches high stakes professional development armed with practical, research-based strategies. Steve is a former elementary, middle, and high school teacher. His administrative experiences encompass those of assistant principal, principal, director, and superintendent.
